“ To all of my cousins and my Aunt Barb...I wish I had been closer to lend a hand to her. I know she has struggled with this disease for a long time and I am very sad to see you all lose her. We all think we've got time...time to spend when the weekend comes, time when the holidays come and time when we retire. I always thought I'd have time to get to know her better. We were 8 years apart but I wished I had taken the time. My loss. Lesson for all of us who still have people we love...take the time. I love all of you.

“ We were childhood friends. I remember so many good times hanging out together. Many bike rides around the neighborhood. Always talking about what we was going to do when we grew up. Haha only if we knew being a kid was so much fun. I remember all the time together when you worked at Kmart. That was so fun time chatting just finding out what was going on in each other's lives. You will be missed here on earth. But you fly high pain free now my friend. I will forever hold you in my heart. Prayers for your family.
